This is Beatrice and she has had her secondary school fees paid from GfL for a number of years. I'm delighted to report she is now attending St Lukes School of Nursing and Health Science as she trains to be a nurse. The fees will also be paid for from GfL.

I regularly visit Orphanages in our locality and I take extra food and treats for them to share and enjoy. The orphans touch my heart as they are so happy to see visitors and receive extra kindness and love from us.

As you can see this baby required surgery to correct his facial deformity. He is from a loving family but without any hope of raising fees. So GfL have paid for the medical surgery. Thanks be to God.

We use the GfL funds to repair and maintain the Water Project; which continues to save lives in our community and for which we are ever grateful.

The Womens Farming Project and the project to involve the local men in Bee Keeping also continue to be successful.

I also regularly feed and provide medicine for the victims living with HIV/Aids who are ever present in our society.

Thank You is not enough to express my gratitude for your long and continued support, also in giving me the choice of where to allocate funds to have the greatest benefit for desperate individuals and for groups and communities.

May God Bless you all and your families in your endeavours as you share your faith with us and encourage me to keep working and struggling to support and relieve some of the severe distress. Whoever we support is needy and the help we give is impactful especially those we help with education. Sr Rose Victoria L.S.O.S.F.
